

Quintas do Homem, Arinto, Vinho Verde

New Producer! New Product! New Region!

This grape is often used in blends and sparkling wines – but in Bucelas they produce top quality single varietal wines. They also are exploring with these wines as they age longer on their lees contact.

It makes vibrant wines with lively, refreshing acidity, often with a mineral quality, along with gentle flavours reminiscent of apple, lime and lemon.

Region: Vinho Verde, Portugal

Grape variety: 100% Arinto

Alcohol: 13%

Production technique: Wine is aged in stainless steel tanks with fine lees for 6 months to enhance aromas and texture.

Characteristics: Produced exclusively from Arinto, presents a bright and citrusy colour. A bright citrus and layered aroma pairs well with a long, vibrant and lively freshness.

Suggestions:

Ideal serving temperature: 12° C (55° F).

Availability: Consignment cases of 12
